Comment:

indicates that the 18th Mecz Div with most of its component units was still concentrated for maneuvers in the MITTJTOCK-SCHWEIRRIJH training area in late September 1949 (evaluation of motor vehicle numbers). A few units of the 94th Gds Mtz Rifle Div, the 9th Gds Tank Div and the 12th Gds Tank Div were also engaged in meneuvers in this area at the same time. Some component units of the Fourth Gds mecz Army (Cadre) may also have participated in the maneuvers. It is assumed, therefore, that the final maneuvers of the 18th mecz Div were conducted in the MITTSTOCK area about the end of September 1949, with component units of the Second Gds Mecz Army and possibly of the Fourth Gds Mecz Army (Cadre) participating.

c. It was also reported from other army areas in the soviet lone of Germany that summer maneuvers were to end in October 1949.
